

# A PROACTIVE, CLIENT-CENTRIC AND CREATIVE APPROACH

When you meet with our Sarasota bathroom designer specialist, you'll be given some creative ideas while we also embrace your own ideas. Our bathroom designer specialists also pay careful attention to your wants and needs. Together, we create a beautiful and efficient custom design that reflects your style and personal taste. For example, instead of a basic doorway between the master bedroom and bathroom, add a nice flow with French doors and glass walls with a grommited curtain panel. Or, add a sophisticated look to your tub with a crisp surround. We can even hide the plumbing of an under-sink open shelf with open cubbies and drawers. And if you're seeking a unique style like a hacienda-style bath, we help choose all the rich pieces, such as a rich red travertine counter, copper vessel sink and handmade tiles. Go with a retro redo and a modern twist using oversized subway tile and amber glass tile work. From modern and vintage to beach and Asian, we offer a wide array of styles.

Whether big or small, we'll help you choose the right lighting, colors and fixtures to create the illusion of a roomy space. We professionally manage all of our work with a meticulous attention to the details. Our clients get all that they expected and more. You'll be delighted with the finished project of your new oasis. Plus, satisfaction is guaranteed.
